

Homepage – Opening Image with the name of the website and some type of logo to represent the site.

About- Personal background of who I am; including small bits of personal information along with design styles and backgrounds. Would also include links to my personal facebook and professional twitter account so people can see the more personal side of me

Projects- This is the portfolio section of the website where I will display all my architecture studio projects from the last 4 years(8 total). This will start with a opening page with project images and names. From there a user will click on the image and arrive at the project with all the info and the remaining drawings/images

Blog- I will use the blog for my current ongoing thesis project that will be completed in May. This will have up to date information on what I'm working on from week to week.

Contact- Here I will have a form to fill out to contact me for prospective clients and employers. This will also include my LinkedIn account and Instagram account for people to review my professional background and work.
